PROFESSIONAL SUMMARY

Software engineer with 6+ years building scalable web applications and microservices.

Experienced with Python, JavaScript, React, Node.js, PostgreSQL, MongoDB, AWS, Docker, and Kubernetes.

EXPERIENCE

Senior Software Engineer, TechNova Inc. (2021 - Present)

- Led a team of 6 engineers building React and Node.js microservices deployed on AWS.
- Improved system performance 40% by optimizing PostgreSQL queries and adding caching.
- Containerized applications with Docker and orchestrated with Kubernetes.

Software Engineer, DataFlow Labs (2018 - 2021)

- Built data pipelines with Python processing 1M+ records daily stored in MongoDB.
- Developed REST APIs with Flask and Django for internal and external clients.

EDUCATION

B.Tech in Computer Science, Indian Institute of Technology (2014 - 2018)

SKILLS

Python, JavaScript, TypeScript, React, Node.js, Flask, Django, PostgreSQL, MongoDB, Redis, AWS, Docker, Kubernetes, Terraform, Git, CI/CD, REST APIs, GraphQL, Unit Testing
